

Pet Cremation

The Humane Society with the services of the San Angelo Animal Shelter offers cremation services for those who have lost a treasured pet.

Cremation Services

Two types of cremation services are offered to meet the needs of pet owners – private cremation and communal cremation.

Private Cremation

This service gives the pet privacy in the cremation chamber and assures the owner peace of mind that the pet was accorded the highest degree of care. Remains are carefully packaged and returned in our standard ceramic urn. Additionally, a signed Certificate of Cremation will be provided.

Dogs (ceramic urn) \$100.00

Cats (ceramic urn) \$75.00

Cedar Urn (add \$15)

Communal Cremation

This service is for clients who do not wish to retain the remains of their pet, but still wish their pet to have the highest quality of care. The San Angelo Animal Shelter will be responsible for their final resting place. A signed Certificate of Cremation will be provided upon request.

Single Fee \$40.00

Pick up and Delivery

You may make convenient arrangements for your pet's transportation and individual cremation with your veterinarian, or by transporting your pet directly to us. The remains of your pet will be available for you to pick up from your local veterinarian approximately 7 to 14 business days after your pet has been delivered to Animal Services.

A portion of the fee will provide funding for the Humane Society's spay/neuter program in our continued fight against overpopulation.
